

**BIJ2 Consulting** is a woman-owned small business delivering **dual capabilities** that set us apart: (1) **Proprietary quality assessment tools** (BIJ2 Evidence Quality Index Suite™) that set the standard for evaluation rigor, and (2) **Full-service evaluation execution** combining PhD-level econometrics, causal inference expertise, and modern data science to deliver evidence that meets the standards we define.

SIGNATURE PRODUCTS & CAPABILITIES

BIJ2 Evidence Quality Index Suite™

**Quality Assurance & Assessment Tools:** Structured frameworks for evaluating research reports, evaluation designs, survey instruments, and federal clearance packages. Delivers diagnostic insights and targeted recommendations to strengthen methodological rigor and federal compliance.

End-to-End Evaluation Services

**Research & Execution Excellence:** Impact evaluations, causal inference studies, econometric analysis, survey design, data collection, and performance monitoring. We don't just assess quality—we deliver it through rigorous implementation from design to final reporting.

CORE SERVICE OFFERINGS

Impact Evaluation & Causal Inference

- ▶ Randomized controlled trials (RCTs)
- ▶ Quasi-experimental methods (DiD, RDD, PSM, IV)
- ▶ Non-experimental comparative designs
- ▶ Pre-analysis plans & evaluation design

Quality Assurance & Technical Review

- ▶ Evaluation report quality assessment
- ▶ Methodological peer review
- ▶ Survey instrument validation
- ▶ Federal clearance package review & enhancement

Survey & Data Collection

- ▶ Survey instrument design & cognitive testing
- ▶ Federal clearance package preparation
- ▶ Multi-mode data collection management
- ▶ Data documentation & metadata systems

Advanced Analytics & Data Science

- ▶ Econometric modeling & forecasting
- ▶ Machine learning & predictive analytics
- ▶ Geospatial analysis & visualization
- ▶ Cost-benefit & economic impact analysis

Performance Monitoring & Implementation

- ▶ Performance measurement systems
- ▶ Logic model development
- ▶ Process evaluation & implementation studies
- ▶ Real-time monitoring & adaptive management

Data Management & Engineering

- ▶ Data integration & ETL workflows
- ▶ Data governance & quality systems
- ▶ Dashboard development & BI solutions
- ▶ Synthetic data generation

WHY ORGANIZATIONS CHOOSE BIJ2

PhD Expertise Meets Federal Standards

Doctoral economists & methodologists who publish peer-reviewed research while delivering federal evaluations that meet rigorous federal and clearinghouse standards.

Quality Authority + Execution Power

Unique combination: we build the quality standards (EQI Suite) AND deliver evaluations that meet them. Partner for assessment OR execution.

Nimble WOSB, Prime-Level Work

Small business agility with sophisticated capabilities. Scale from specialized sub roles to evaluation co-leadership with rapid deployment.

SECTORS & REPRESENTATIVE PROJECTS

Domains & Problem Types

- Labor markets, workforce development & employment programs
- Education, training & human capital development
- Healthcare, public health & social services
- Environmental policy & sustainability initiatives
- Program evaluation & evidence-building

Project Types

- Large-scale impact evaluations
- Federal data documentation & metadata systems
- Quality assurance frameworks & peer review
- Strategic data analytics & BI dashboards
- Academic research & peer-reviewed publications
